Jessica Ray with the Viking Cooking School illustrates how to create culinary delights using the Viking oven

For most people, home is where the kitchen is and Gallery is no exception — the residences were built with a particular attention to the features and finishes that make a great kitchen. One of the cornerstones of the gourmet Gallery kitchen are the premium Viking appliances. To demonstrate the superior capabilities of Viking, Gallery recently hosted a catered agent luncheon with Jessica Ray of the Viking Cooking School. Showing the exceptional performance of the appliances, Ray prepared treats using the Viking range and warming oven currently featured in the newest Gallery model home. To see the gourmet Gallery kitchen first hand, schedule a tour today!

Congratulations to Donna Boynton!

A Harry Norman realtor, Donna attended Gallery's Viking cooking demonstration and won a gift certificate to the Viking School!
